Customer Satisfaction & Guarantee-We do not guarantee the survival of these trees unless they are in distress when leaving the nursery. We took care in getting the trees to the customer(s), however once the trees leave the nursery it is the responsibility of the customer/landowner to make sure that they are planted properly and watered. Assistance is available through the nursery manager or private wildlife/forestry consultants in the area. It is also helpful to offer information from the soil survey book on specific trees to plant in specific areas. *(Newwaygo Conservation District Nursery Sales & Cancellation Policy)*

Newwaygo Conservation District is an independent unit of state government which has a philosophy and commitment to the stewardship and conservation of the environment. The NCD consults with landowners to educate them in the planning and use of their land. All programs and services are available without regard to race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because of all or part of an individual's income is derived from public assistance.
